Mr. Duane Hustrulid
Atwell Demolition

Re: Reference Letter re: Salvage Demolition

Duane,

I am pleased to share my personal experience in the field working with Atwell Demolition and their team of technicians. In the recent past, we have worked on two luxury golf clubhouse restoration projects, successfully.

I attribute that success and the fact that The Estancia Club is bringing Kitchell back for another project to the expertise of its trade partners such as Atwell Demolition. Your guidance and expertise in means and methods for salvage and demolition was key to my ability to budget and manage these projects.

Sincerely,

Art Jordan AIA LEED AP
